[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MAY 25.

THE CIVIL WAR IN FRANCE.

Horrible Scenes in Paris.

St. Denis, May 24, Evening.—This has been a terrible day for Paris. The city is burning in many places. The destruction of a great part of the central and eastern districts seems inevitable.

The Communists still hold all districts between Place Vendome, Tuilleries and Belleville.

Troops are mowed down by fire from windows, barricade and mitrailleuses, but steadily gain ground. The slaughter is awful.

Versailles, May 24.—A fire brigade has gone to Paris. Thiers has gone to superintend operations. There are reasons to fear that Palais Royal, Hotel de Ville, and other state edifices have been prepared by the Communists for destruction by fire.

East Side of Paris, May 24, Evening.—The dead remain unburied, and the wounded lay unattended in the streets.

Versailles, May 24.—In the Assembly to-day Thiers announced that Hotel de Ville was in flames, and expressed horror at these acts of vandalism, and declared it was the purpose of the Government to punish the perpetrators without mercy.

Dispatch from Bucharest.

Bucharest, May 24.—Throughout the elections a strong reactionary feeling was shown in favor of Prince Charles. The latest returns strengthen the ministerial majority in the Chambers.

WASHINGTON CITY.

The Treaty Ratified.

Washington, May 24.—The Senate went into executive session at twenty minutes past 10 o'clock this forenoon, on the treaty of Washington. Among those who made speeches were Senators Corbett, Vickers, Morrill, of Vermont, Thurman, Morton and Kelly. All amendments were voted down by a large majority. The treaty finally at 10 minutes to 12 o'clock was ratified by a vote of 50 to 12. The injunction of secrecy has not yet been removed. The Senate adjourned till to-morrow at 11 o'clock.

The Postmaster General calls particular attention of European correspondents to the fact that steamers of the North German, Lloyd and Bremen lines do not at present carry any closed mails for the continent which have to be landed in Great Britain.

Colfax is too weak to hold conversation. His physician said to-night that he had been in a dangerous condition, but the prospect now was that he would recover, as his symptoms were favorable.

It is denied in official circles that Collector Murphy is to be removed. It is further said that Murphy has the confidence of the President and Secretary Boutwell.

EASTERN STATES.

Pennsylvania Democratic Convention.

Harrisburg, May 24.—The Democratic State Convention to-day nominated Gen. W. McCandless, Auditor General, and Capt. J. M. Cooper, Surveyor General. W. A. Wallace was elected Chairman of the State Central Committee.

Southern War Losses.

[From the San Francisco Call.]

The census returns makes a bad exhibit for the Southern States. Their property losses have been fearful in the last decade, aside from those included in the freedom of the slaves. The people staked pretty much their all on the result of the civil war. The direct contributions made to its support—vast as they were—are overshadowed, however, by the damage done to the plantations, the trampling down of fields, the destruction of railroads, the conflagration of cities, the ruin of orchards, fences, dwellings, and the depreciation of real estate. An enumeration of several of the States in actual rebellion or in sympathy with the Confederacy, presents the annexed showing: Kentucky loses one hundred and four millions, or about twenty per cent.; Mississippi, three hundred and fifty-five millions, or seven-tenths; Tennessee, sixty millions, or nearly twenty per cent.; Florida, thirty-six millions, or more than one-half; South Carolina, three hundred and twenty-six millions, or nearly two-thirds; Virginia, one hundred and eighty-six millions, or nearly two-sevenths. The valuation of property in the State of Georgia before the war, was $618,232,387; Now it is only $202,563,557—a falling off of $415,668,830. The aggregate loss in the Southern States foots up about twelve hundred millions of dollars.

It will take a generation, or perhaps longer, for the South to recover from her crippled condition. The acerbities of the past must be eradicated from the minds of her people. Instead of brooding over their misfortunes, they should set to work vigorously to repair them. They have got rid of the institution of slavery, which, under the most favorable circumstances, was of doubtful benefit. It was a cancer which ate the deeper the longer it was let alone; and although the process of its removal occasioned pain, and has given rise to bitter regrets, the future is much richer in promise without it. The competitive race with the North has just commenced, and when the Southern people can look their reduced situation squarely in the face, and have learned to dignify and stimulate labor, it will not be long till the success of this wholesome rivalry will manifest itself in successive harvests of commercial and industrial prosperity. The South has advantages of soil and climate which need only to be properly used to make her in the near future a greater empire than she has ever been before.

The Umpqua Tragedy.

A San Francisco paper, the *Bulletin*, has obtained from the Captain of the steamer *Pelican* some further particulars of the tragedy at the mouth of the Umpqua. We quote the following:

> What the sentence was, is not known, as it was delivered in a whisper. The trial was concluded about midnight. The court restored to the prisoner his watch and money, bound him securely and placed him in a small skiff. The man who had pronounced himself as sheriff went on board the skiff, armed with a Colt's revolver and pushed off into the stream with his prisoner. Not long after, at 1 o'clock Thursday morning, the 11th inst., the report of a pistol was heard at the boat, and a little time more the "sheriff" returned alone. What the sentence was remains
>
> A MYSTERY,
>
> As also does the manner of the final disposal of the prisoner. Whether he was shot or not is known only to the solitary boatman. There are those who incline to the belief that he took the prisoner to the opposite shore and set him free, firing the shot to give the belief that he had shot him. This belief gains support from the fact that it is said Smith was a member of the Masonic fraternity, and it is believed the "sheriff" and others of the Court, were members of the same. It also seems singular that if the ruling spirits of the self-constituted jury had desired his death, they would have executed him in a body, instead of deputizing one man to carry into effect the verdict of the father. Altogether this is one of the most singular combinations of circumstances that have come to light for some time.

An Iowa girl, who read Cooper's novels until she became possessed with the idea that she could never be happy unless as the bride of a "red man of the forest," found one last week, married him and went to his camp on the banks of the sylvan stream where he trapped for muskrats. She only stayed one night, and came home with a black eye, and had to send out for a bottle of hair restorative. It seems the noble savage got drunk and punched her in the eye, while his old squaw went among her hair. The girl don't want any more Indian, if she knows her own heart.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

THE CIVIL WAR IN FRANCE.

London, May 25.—The latest dispatches from Paris say the Place of Luxembourg has been partially blown up.

Palais Royal is still burning. Only one-third of Louvre has been saved.

Fighting continues at Hotel de Ville and at the terminus of the northern railroad.

McMahon, with his staff, have removed to Place Vendome.

A heavy rain is falling.

New York, May 25.—A special dispatch gives details of the terrible scenes enacted in Paris.

Yesterday the fighting in Boulevard, Hasseman, Faubourg and St. Honore was very severe.

Many houses are filled with the dead.

Both sides of the Hotel of the Minister of Finance are burning fiercely.

The north side of Louvre is completely gutted, and four walls only of the Palais Royal are standing.

Fighting is severe around Hotel D'Ville, which is still blazing with petroleum.

The British Embassy building is much damaged. Its office of archives are burned.

Place de la Concorde is terribly injured.

No quarter is given.

The fire is raging in nearly every street.

The Northern railroad station is in the hands of the Versaillists.

There is a heavy bombardment on Paris from the barricades on the top of Rue Fayette.

A special from Versailles, Wednesday night, says Vinoy telegraphs from Paris that he has possession of Hotel de Ville. Belleville and Temple quarter resist vigorously.

Six great fires are visible from this point.

A Paris special, Wednesday night, says Place Vendome was definitely occupied.

At 4 o'clock this morning the insurgents made a strong stand at Rue St. Honore.

Palais Royal was set on fire by the retiring insurgents. They are still fighting like fiends in eastern Faubourg.

The population of Paris are mad with joy. Tri-color floats everywhere. The streets are quiet.

The Versailles troops are orderly. The hunt for the Commune leaders has begun. The police are searching houses, rooms and cellars.

Paris is terribly dismayed. The streets are smeared with blood and littered with debris.

The Austrian Embassy, property of Empress Eugenie, has been burned.

Caisse des Consignation is reported destroyed.

The departure of the Spanish Embassy from Paris is impossible. The passage through the city is difficult and dangerous.

The loss of the Versaillists is small. Twelve hundred prisoners were taken to Versailles.

It is reported that Billorxy was shot immediately after being taken.

Another correspondent telegraphs from Versailles that Paris is being burned to the ground.

Mad and frenzied insurgents deliberately fired Lower Tuilleries, Courdes, Comptes, Hotel de Ville, Ministry of Finance and many churches and every public building in the city. The conflagration is rapidly extending.

A correspondent tried to enter Paris but found it impossible. In watching the fire he noticed its tremendous increase, and one third of the city he says will be burned before night.

Still another correspondent from Versailles telegraphs that the insurgents are beaten everywhere except at Belleville, Montrogue and Autone, and their chiefs are now skedaddling. Delasluse is a prisoner. Dombrowski is a prisoner of the Prussians.

Thiers announces that all the Nationals must be disarmed immediately.

Paris, May 25.—A furious cannonade and musketry fire was kept up all night. Insurgent batteries hold the buttes at Chalons.

The conflagration is decreasing. Engines arriving from the provinces accomplish little.

The insurgents at Saint Antone, Belleville and Montrouge fight without leaders to check the advance of the Versaillists.

Versailles, May 25.—Thiers has issued the following circular:

We are masters of Paris, except a small portion which will be occupied to-day. Lanore is saved, and Finance buildings partially. The Tuilleries and Palace de Orsay Court from accounts are wholly burned. Already we have 12,000 prisoners, and shall have 20,000 soon. Paris is strewn with insurgents corpses. Our loss is small. The army behaved admirably. Justice will soon be satisfied. We are happy amidst our misfortunes.

Rumor from London.

London, May 25.—It is said that negotiations are progressing for the cession to Germany of Heligoland.

WASHINGTON CITY.

The Vote on the Treaty.

New York, April 25.—Special from Washington states that the following is understood to be the vote on the ratification of the treaty: Ayes—Ames, Anthony, Bayard, Boreman, Buckingham, Caldwell, Cameron, Carpenter, Chandler, Clayton, Cole, Conkling, Cragin, Edmunds, Fenton, Flanegan, Frolinghuysen, Gilbert, Hamilton of Maryland, Hamlin, Harlan, Hill, Hitchcock, Howe, Kellogg, Lewis, Logan, Morton, Nye, Osborne, Patterson, Pomeroy, Pool, Pratt, Ramsey, Rice, Robertson, Sawyer, Schurz, Scott, Sherman, Spencer, Stewart, Stockton, Sumner, Tipton, Trumbull, Wilson, Windom and Wright—50. Nays—Blair, Casserly, Corbett, Davis, of Kentucky, Davis of West Virginia, Hamilton of Texas, Kelly, Sprague, Saulsbury, Stephenson, Thurman, Vickers and West—12.

The *Tribune's* special says there is excellent authority for the statement that Secretary Fish will shortly retire from the Cabinet and be appointed a member of the tribunal of arbitration which is to meet at Geneva for the settlement of the *Alabama* claims.

POLITICAL NOTES.

It seems that the "reaction" started by the Democrats won't stop. A few days ago the Republicans carried Lexington (Ky.) by 1,262 majority, and Frankfort (Ky.) by 600 majority.

Senator Schurz, in a speech lately delivered in St. Louis, gave very cold comfort to the Democracy who had been flattering themselves that they had captured him, body and soul. He declared his adhesion to the Republican party in strong terms, and combatted the inference of his defection from the Republican ranks, simply because he had criticised certain measures of the administration.

In a speech made before the late Taxpayers' Convention in South Carolina, by Trenholm, once Confederate Secretary of the Treasury, he said he fully indorsed universal suffrage, and he solemnly declared that in view of all the circumstances of the war, the clemency of the North toward the South had few examples in history. This language was reported by telegraph from Charleston, May 10th, to the New York *Tribune*. It is a fitting rebuke to those Northern pestilent Democratic mischief-makers who are perpetually talking of the despotism and tyranny of Congress in regard to the South.

The New York *Tribune*, alluding to the buncombe talk in certain journals of Democratic proclivities, about Gen. Sherman in connection with the Democratic nomination for the Presidency on a Tammany platform, says the General would smash into splinters such a platform before the first month of the canvass was over; and if by any improbable luck he came to be President, the *Tribune* continues, "we would expect, before the Cabinet was formed, to see Boss Tweed kicked down the steps of the White House, slate, diamond breast-pin and all, by the rash and splenetive soldier, whose civil policy the ring could no more predict or follow than than the flight of a meteor, and whose hard integrity they could no more mould to their scoundrel purposes than they could knead granite to their daily bread."

A gay disciple of Esculapius lately eloped with Mrs. Plank and two little Planks, whereupon Mr. Plank was a good deal bored at first, but afterwards felicitated himself upon getting rid of so much useless lumber.

Press Opinions on the Treaty.

The New York *Herald* considers the treaty of Washington "a fair and comprehensive adjustment." We give the closing paragraph of the *Herald's* article:

> All things considered, the Joint High Commission, in this treaty, have achieved a great and glorious work, worthy the two great nations of the English-speaking races; worthy their boasted enlightenment and advancing civilization; worthy the amiable, peace-loving Queen Victoria and our honest soldier President, whose motto is, "Let us have peace," and full of promise to the general interests of mankind in the cause of peace. There is nothing in this treaty between the United States and Great Britain to excite the jealousies of other nations. On the contrary, so many of them are invited to assist in it that they must all become interested in it and instructed by it in the ways of peace. Its ratification, which is close at hand, will surely be the opening of a new chapter of "peace and good will to men."

The New York *Tribune* discusses the treaty in detail. It says that it is a method of settlement of outstanding accounts between the two countries "on a basis of mutual respect and forbearance." It remarks further:

> The 6th Article of the Convention marks an era in diplomatic history. If adopted, it will place the duties of neutrals on an entirely new and higher ground than any hitherto occupied. The United States and England, two of the greatest maratime powers, with a view to their incorporation into the accepted law of nations, the most rigid regulations for the observation of neutrality ever promulgated. They provide that a neutral Government shall be bound to use due diligence to prevent the fitting out within its jurisdiction of any vessel which it has a reasonable ground to believe is intended for hostile purposes against a friendly power, and also to use due diligence to prevent the sailing of any such vessel. The second provision is still more stringent—not to permit either belligerent in a foreign war to make use of its forts or waters as the base of naval operations against the other, or for the renewal or augmentation of military supplies or arms, or the recruitment of men. There is a third provision, merely a corollary of the preceding, binding the parties to use due diligence in their own ports and waters, and elsewhere, to carry the foregoing provisions into effect.

To the objection that the treaty really concludes nothing, and that it merely provides for Boards of Arbitration, before which all these questions are to be debated anew, the *Tribune* answers:

> This is a great advance upon the previous stages of our negotiations. Our antagonist has never before consented to submit to arbitration the really essential points of our dispute. There is no other way out of a diplomatic dead-lock when the views of the two Governments are ascertained to be incompatible. The arbitration of a friendly power is the only *Deus ex machina* which can solve the tangled riddle. We can make no objection to the selection of arbitrators and umpires. Those who are to decide upon the most important question of all are to be named by the King of Italy, the Emperor of Brazil, and the President of the Swiss Republic. These are all free from dynastic or interested complications with either party. We can rely upon their absolute fairness. We are sure of our right in the controversy, and are justified in fearing the issue of an impartial arbitration.

The New York *Times* says a treaty of this kind, providing for friendly arbitration, is "a splendid triumph of modern civilization, and an immortal contribution to the history of the two great nations." It adds:

> "Let our people regard it from whatever point of view they may, and we believe they will rise from its perusal with the conviction that a fairer basis for a settlement of our differences with Great Britain no human being or collection of human beings could devise. The Commissioners who drew it up well deserve the gratitude and respect of both nations. We cannot believe that factious criticism in any quarter can prevent this treaty being ratified—but if it did, we might as well abandon finally the hope of settling disputes by peaceable arbitration, and make up our minds to resort to what has so long cursed the earth—the 'arbitrament of the sword.'"

The New York *World* (Dem.) claims that its own ideas are substantially embodied in the treaty. It says:

> There is a marvelous correspondence between the substance of the treaty and recommendations long since made by the *World* and persistently repeated in its columns up to the time when the Joint Commission was appointed. The coincidencies show that fair minds which have looked into this dispute with some care have reached the same conclusions, much as two honest jurors would be likely to render the same verdict upon the same testimony, or two independent judges deliver substantially the same charge.

The general tone of the press, of both parties and of all shades of political opinion, is favorable to the treaty. A few carpers, indeed, oppose it, as they oppose everything that other men begin or perform, but this opposition is not respectable either in numbers or ability. The great majority by which the Senate has ratified it (as will be seen by our dispatches to-day) is further proof of the favor with which it is regarded.

The Nickel Cent.

SAN FRANCISCO'S CONTEMPT FOR LOW GRADE COIN.

From the San Francisco Bulletin.

The Bank of California recently introduced $5,000 worth of nickel cents into this city, to meet an apparently growing demand for that coin. It was generally supposed that the people had been educated up to the cent standpoint and that they were willing to make any reasonable sacrifice in order to clear themselves of that demoralizing incubus—the "bit swindle." Mistaken idea. The brilliant traditions of San Francisco are not to be ruthlessly dashed into fragments; past glory must be made to compensate for present misfortune, and Eastern innovation, where a blow at a cherished institution is intended, cannot be for a moment tolerated. No matter what benefit may accrue to the city by the introduction of the nickel, it is bound to be regarded unfavorably by many jealous people. These parties will talk of the days of '49, and yearn for the "slug" currency, though the great majority of those who form the opposition, never were "slugged" to any considerable extent. The harsh click of the nickel grates upon the tympanum of these men, who profess to have been accustomed only to the musical jingle of silver and gold. And yet these same opponents will, at no distant day, gladly embrace the opportunity of obtaining nickels.

The nickels are in demand, but not for circulating purposes. When bright and new, they are used for pocket-pieces. They are principally used in petty gambling, and the pitching of cents has become so fashionable that the brokers experience little difficulty in disposing of their stocks of low-grade coin. If this gambling mania continues, the stock of cents will become deplete, and another invoice will be needed. Perhaps it is only through gambling, after all, that the nickel can obtain a footing here. In any event, the present state of affairs shows that San Francisco has a supreme contempt for the nickel.

The message of President Grant, recommending legislation to protect life and property in the South, has been so generally commended by the leading presses of both parties for opportuneness, it is, perhaps, proper to state that it was penned on the impulse of the moment, in the President's room at the Capitol, when surrounded by twenty or more members of Congress engaged in conversation.—*Washington Chronicle.*

A Knoxville paper has actually published an advertisement of an umbrella that had been found. A fine gingham umbrella at that, which the owner could have by identifying it. The millenium must be dawning down that way.

Germans to the Rescue.

[From the New York Nation.]

The Milwaukee *Herald*, a German paper, makes a forcible appeal to the Germans of this city to join in putting an end to the rule of Tweed and Sweeny, not only for local reasons, but as an act of patriotism. It says what is the sober truth, that the gang which, having its seat here, now controls the entire State, is disposing of its plunder with a view to carrying the next Presidential election, sure of the support of similar rings to which its example has given rise, or, as is very likely in the case of Pennsylvania, of which it is the immediate accomplice. The Germans of New York, therefore, in doing their duty by their own State, werl be aiming a blow at corruption in all parts of the country. Their conduct, moreover, will inspire, as nothing else can, the German voters everywhere to throw off the apathy they have heretofore shown, and take their rightful share of political influence. The regeneration of Germany, says the *Herald*, has made the present time auspicious for such a movement. It has rendered the German-Americans conscious of their strength, and it clearly imposes on those in this city the duty of leadership. The visible achievement at Sedan was, in fact, as we have often pointed out, but a small part of the great victory; and the Germans who marched in procession the other day can prove it, if they choose, in the political field to which they are summoned to meet a subtler form of Cæsarism than that just overthrown in France.

The Largest Circulation.—The Philadelphia *Ledger* is said to have a daily circulation of 76,000, which a Chicago paper declares is the largest daily circulation obtained by any paper in America. The London *Telegraph* circulates 190,000 copies daily.

The Daily Oregonian.

FRIDAY MORNING, MAY 26, 1871.

Of Importance to both States.

In our article reviewing the proposition to build a new line of railway from Salt Lake by way of Southern Idaho and Goose Lake into California, so as to give the Company now controlling the Union Pacific a continuous line from ocean to ocean, the San Francisco *Bulletin* says that long before the connection was made between the Union Pacific and Central Pacific, the former expected to build an independent and continuous line to California. With this plan in view, surveys were made in 1867 of the country through which it is now proposed to construct the road. But, after the junction of the Central and Union was effected in 1869, the plan was suffered to drop. The Union Company had not resources to push it forward. But now, since a combination has been made which brings several lines under the control of the Pennsylvania Central, and reaching from New York to Salt Lake, under a single management, constituting perhaps the most powerful railway combination in the country, the scheme of building an independent line through to the Pacific is revived and will be pushed through.

The *Bulletin* discusses this project in all its relations to California, and considers, it in its probable effects upon the trade and industry and development of that State. We do not care to follow that paper through this part of the subject. It will be of more interest to inquire what its effect upon Oregon will be. It will open a direct connection with the East by the Oregon and California road, through the south-eastern part of the State. The argument in favor of this connection was ably set forth in a memorial addressed to Congress passed by our Legislature. It is a great and necessary part of the railway system of Oregon, and will afford that outlet from the southern part of the State toward the East that is indispensable to a rapid development of the country. It will insure a profitable trade for the southern portion of Holladay's road, and the prospect will undoubtedly greatly stimulate the construction of his road through the Umpqua and Rogue river valleys.

The construction of this new line from Salt Lake into California, on the route proposed, will also make easier the construction of the Salt Lake and Columbia river road,—another enterprise which is of vital importance to Oregon, for it will shorten the line of this last named road by some hundreds of miles, and will thus help forward a system of railways which will result in the simultaneous development of all parts of Oregon and the Territories east of us. This proposed new road has almost as much significance for Oregon as it has for California.

More Southern Authorities.

The New Orleans *Times*, which is one of the best and most trustworthy exponents of the views of the Democrats in the Gulf States, complains in unreserved terms of the unseemly and offensive pertinacity with which papers like the New York *World* are "always lecturing the South in the interest of the New York Democracy," and boldly avows its unwillingness, and the unwillingness of the Southern Democrats, to be kept in a state of humility and subordination to the Democratic chiefs of the North. To all the suggestions that they must accept the situation "just as they ought to have accepted the Douglas dodge of 1860," the *Times* rejoins:

> We have but to say, that the South, as in 1860, values manly consistency and honesty above mere party success. They did not believe in 1860 that the rights of the South were secured by the Douglas compromise of popular sovereignty in the Territories. On the contrary, they regarded it as an insecure and time-serving scheme to postpone for a few years longer a result which was bound to come sooner or later, and for which they were better prepared then than they would be at the period to which the Douglas movement proposed to postpone the issue. They made the issue in manly good faith and in logical consistency, and risked everything upon it. They lost the battle and submitted to all its consequences. They acknowledge no responsibility to the Northern Democracy for their conduct on that occasion, and they submit to no reproaches and taunts for a course approved by their consciences and manhood. And while ready to co-operate in good faith, and with all their zeal with the Northern Democracy in all efforts to restore the constitutional administration of the Government, it would be well for the *World* and similar politicians to understand that it is not a condition of such co-operation, nor would it promote its harmony or success, that the South should put on sackcloth and ashes and prostrate itself in the dust, before the Northern Democracy, for its alleged past sins and errors, and make any pledges or promises to adopt blindly any hollow and deceptive schemes and compromises, merely to insure some party advantage or achieve a victory, only profitable to office seekers and partisan jobbers and managers.

Quite to the same purpose, but even more emphatic, is the language of the Memphis (Tenn.) *Appeal*. That paper abhors the hypocritical cant of those Democrats who talk of "accepting the situation." It expresses a belief that the Democratic party will triumph in 1872, and says that the "obnoxious amendments and all laws enacted in pursuance of them will then be wiped out."

Of the law to suppress the Ku Klux, Senator Edmunds, in a recent speech said: This law is in every respect, analogous, in the processes by which it seeks to enforce a constitutional power, to the Fugitive Slave law which was unanimously and zealously supported by the whole Democratic party, but unlike that infamous law which was based upon a mere implication of power to enforce a constitutional compact, the Ku Klux bill rests upon express constitutional warrant; and there is this wide difference between the two, that while the object of the Fugitive Slave law was to deprive men of their liberty and remand them to a state of slavery, the object of the Ku Klux bill is the precisely opposite one of protecting citizens in the rights and liberties guaranteed to them by the Constitution from those bloodhounds of slavery who have not yet learned that there are no longer slaves in the United States or unlearned the habits of brutal violence and tyranny into which slavery educated them. The Ku Klux bill will teach them better.

Speaking of the preamble to the treaty of Washington, in which the British Government expresses its regret for the escape from British ports and depredations on our commerce of such rebel cruisers as the *Alabama*, a leading Eastern paper says; "Here we have that graceful apology which silences the heaviest battery of Senator Sumner, and which clears the ground for an *entente cordiale* never before known between England and the United States."

Dr. Livingstone, the great traveler and explorer, began his present expedition into Africa nearly twelve years ago. As it is now now positively announced that he has emerged from that hitherto totally unknown region, a report of his explorations will be anxiously awaited.

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, May 25.—A man named Evans, conductor on the North Beach and Mission cars, was run over and instantly killed by a locomotive on Folsom street, this afternoon. He leaves a family unprovided for.

General Indian Outbreak in Arizona.

SANTA FE, New Mexico, May 24.—To Gen John M. Schofield: The following dispatch is just received:

CAMP APACHE, A. T., May 18—All the White Mountain Apaches broke out in open war on the 15th inst. Cause not known, unless it be the Camp Grant affair. (Signed)

JOHN GREEN,
Major 1st Cavalry, Comd'g.

The Camp Grant affair alluded to was the killing of 100 Indians on the reservation by the citizens. (Signed) GORDON GRANGER,
Commanding Headquarters,
Military Division of Pacific.

It is generally believed that the Democratic County Committee meditate a *coup d'etat* similar to that of the Republican Committee last night, setting aside the primaries entirely and appointing the delegates to the State Convention themselves. The action of the Republican County Committee in appointing delegates to the State and Congressional Convention without authority, last evening, takes everybody outside by surprise, and is denounced by a very large portion of the Republicans. It is now thought the ward clubs will repudiate the nominations and call on the County Committee to resign. The outcry appears to come from the men who furnish the sinews of war, but generally take no direct part in the premises.

It is rumored currently that parties in this city who have had experience in a recent successful lottery have made arrangements in company with Eastern capitalists to start a lottery on a gigantic scale, said to be the heaviest scheme ever promulgated in America. The headquarters will be Louisville, Kentucky, with branches here and in New York and other cities of the North and South.

Tickets of the Sacramento Pioneers' Gift Concert are selling so rapidly here that there is little doubt that they will be all or nearly all sold by the 1st of June. The agent states positively that there will be no cancellation of tickets or reduction of prizes.

The burglars who entered Cames's store, St Helena, and cut open the safe, were captured at Napa. $2,000 of the stolen funds were recovered. After confessing the robbery and promising to restore the remaining funds the burglars were both carried off this morning by fifteen armed men in masks, and their fate is not yet ascertained.

The man run over and killed, at the intersection of Folsom and Twenty-Third streets, this evening, was Wm. Ohearn, a driver for the street railroad. He had detached the team from his car, when the horses became frightened by the locomotive of a wood train of the San Francisco and San Jose railroad, and running upon the track of the latter road, drew him directly upon the rails. He was instantly killed, and one horse cut in two.

The Executive Committee of the Young Men's Central Republican Club is in session this evening, and will call a meeting of the Club for to-morrow, to take action regarding the course of the County Committee, whose appointment of delegates the Club will, it is thought, repudiate. The Tenth Ward Club will also meet for the same purpose to-morrow evening. It is charged on the street that some of the members of the County Committee held proxies this morning at 10 o'clock from some of the delegates they had appointed at 11 o'clock last night.

Weather cloudy and warm, with wind from the southwest.

SHASTA, May 25.—Yesterday at half past 7 A. M., Wm. J. Christopher, an employee of the Washington Mining Company, at French-Gulch, fell down a shaft a distance of 110 feet, sustaining injuries from the effect of which he died at 11 o'clock last night. Deceased was a native of England, aged 38 years.

SAN JOSE, May 25.—At two o'clock, this morning, a fire broke out in the rear of tailor shop, kept by A. Ruh, on Eldorado street, next door to corner of Lighston street. The fire communicated to a corner building occupied by Robertson as a shoe store, the contents of which were carried out and saved. Ruh's stock was totally destroyed. Cramier's gunsmith shop was partially burned. The buildings were gutted; nothing but the outside shells remain. The premises and stock of all but Cramier, were insured.

UTAH.

SALT LAKE, May 25.—Grasshoppers and crickets have appeared in vast numbers at Deep Creek and the valley thereabout, destroying cattle ranges and the crops.

The Monitor and Magnet Mining Company shipped to San Francisco to-day 330 bars bullion, weighing 32,571 pounds.

The *Herald* told us the other day that it considered the Memphis *Avalanche* (a Ku Klux organ) a better authority as to General Sherman's New Orleans speech than General Sherman himself. That is, it believed the report given by the *Avalanche*, rather than the denial of the truth of that report, uttered by General Sherman. And now it comes again and says that the *Avalanche* had an exclusive report of the speech, and no person is qualified to deny that the report is correct. Of course General doesn't know Sherman what he said! A Ku Klux rebel paper is authorized exclusively to speak for him!

The Jacksonville *Sentinel* says that contests are becoming frequent in that county between the miners and homestead and pre-emption claimants. The latter have notified on lands which miners have claimed for many years and worked as often as they could get water, and are seeking to get patents for the same as agricultural lands. Most of the lands are worthless for agricultural purposes, and the object is simply speculation.

If the vote in the Senate on the treaty of Washington be correctly reported, Senators voted without regard to party affiliations. Several Democrats voted for the ratification, and a few Republicans against it.

THE UNK WEED REMEDY

OR

OREGON RHEUMATIC CURE!

HISTORY.

THIS REMEDY IS COMPOSED OF THE ACTIVE principle of the Unk Weed, Eng.—Thaspium Cordatum Origanlas, Lat.—Indigenous to Oregon. Grows most abundantly and perfectly in Washington county.

It is the most sure and speedy cure for RHEUMATISM, RHEUMATIC GOUT AND RHEUMATIC PAINS, of all kinds that was ever introduced in the Materia Medica.

Read the following certificates of the above fact from several of the most distinguished citizens of Oregon.

Certificate from A. R. Shipley, Esq., special contributor to the *Willamette Farmer*, and Secretary of the Oregon Horticultural Society:

OSWEGO, OR., March 28, 1871.

DR. A. M. LORYEA—Some four weeks ago I was entirely prostrated with Rheumatism, in fact I was almost helpless. I sent to you for one 10-ounce bottle of the "Unk Weed Remedy," by the use of which I experienced almost immediate relief; and by the time the bottle was gone the Rheumatism was gone. From my own experience, and from what I have heard others say who have used the Unk Weed, I believe it to be a certain cure for Rheumatism. Yours, respectfully, A. R. SHIPLEY.

Certificate from the Hon A. J. Dufur, ex-President of the Oregon State Agricultural Society, and author of "Statistics of Oregon:"

EAST PORTLAND, April 1, 1871.

DR. A. M. LORYEA & Co.—I was afflicted with a severe attack of Chronic Rheumatism; was confined to my bed most of the time from January to July, when I used the Unk Weed, and it cured me up. A. J. DUFUR.

Certificate from Hon. Gideon Tibbetts, a member of the City Council of East Portland:

EAST PORTLAND, April 7, 1871.

DR. A. M. LORYEA & Co—*Gents:* This is to inform you that I have used your "Unk Weed Remedy" for Neuralgia and Rheumatic pains, and found relief from the use of only one bottle, and can recommend it to those in need of such a remedy. Yours,
GIDEON TIBBETTS.

Certificate from Mr. James Bybee, the celebrated stock grower and "King of the Oregon Turf."

SAUVIE'S ISLAND, January 14, 1871.

To DR A M LORYEA & Co—This is to acknowledge the efficacy of your "Unk Weed Remedy, or Oregon Rheumatic Cure" I was afflicted for months with a very *serious* attack of Inflammatory Rheumatism, and tried nearly all the so-called Rheumatic remedies without any relief perceivable. I then tried your Remedy, and its use resulted in the most happy effects—a perfect cure.
Truly yours, JAMES BYBEE.

Certificate from Hon. E L Quimby, ex-County Commissioner of Multnomah county, Oregon:

EAST PORTLAND, April 1, 1871.

DR A M LORYEA & Co.—I have used the "Unk Weed Remedy," and am satisfied it is a valuable medicine. It regulates and invigorates the system. This is my experience with the remedy. Truly yours,
E. L QUIMBY.

Certificate from Hon N. H. Lane, Pilot Commissioner of Oregon, and a member of the City Council of East Portland.

EAST PORTLAND, April 19, 1871.

DR. A. M LORYEA & Co.—I have been afflicted for several years with "weakness in the back," and wandering Rheumatic pains accompanied by *severe constipation*. By the use of *one bottle* of your Unk Weed Remedy, or Oregon Rheumatic Cure, I have been entirely relieved, and I cheerfully recommend it as a most valuable and efficient remedy. NAT. H LANE.

Certificate from the well-known merchant, O. W. Weaver, Esq.

THE DALLES, May 23, 1871

DR. A. M. LORYEA & Co.—I have used the "Unk Weed Remedy" and can cheerfully recommend it to persons afflicted with Inflammatory Rheumatism. It cured me of that disease. My hands, wrists, ankles, indeed, all my joints were swollen and very painful.
O. W. WEAVER.

Certificate from the celebrated musician, Prof. Otto Vieuxtemps:

OREGON MUSICAL INSTITUTE,
PORTLAND, May 22, 1871.

DR. A. M. LORYEA & Co.—I was attacked with severe Inflammatory Rheumatism, suffering great pain, and was so prostrated that I was unable to attend to my business. I used one bottle of your Unk Weed Remedy, or Oregon Rheumatic Cure, and was entirely cured by it alone.
OTTO VIEUXTEMPS.

Put up in 10 ounce bottles, at $1 50 per bottle.

NEW 7-30 GOLD LOAN

OF THE

NORTHERN PACIFIC RAILROAD CO.

Secured by First Mortgage on Railroad and Land Grant.

GOLD PAYMENT.

BOTH PRINCIPAL AND INTEREST ARE PAYABLE in American Gold Coin, at the office of Jay Cooke & Co., New York City—the Principal at the end of 30 Years, and the Interest (at the rate of seven and three tenth per cent. per annum) half yearly, first of January and July.

THE RATE OF INTEREST

Is a most convenient as well as profitable one, being seven dollars and thirty cents each year on every hundred dollars, or on the various denominations of bonds as follows:

Two cents per day on each	$100	bond
Ten " " "	500	"
Twenty cents per day on each	1,000	"
One dollar " "	5,000	"
Two dollars " "	10,000	"

BONDS RECEIVABLE FOR LANDS.

By the terms of the mortgage the 7-30 bonds of the Company are always receivable, at par and accrued interest, in payment for the Company's lands at their lowest graded prices; and by the arrangement between the Trustees and the Directors of the Company, in all cash purchases of land from the Railroad, 10 per cent. discount will be made from the purchase price whenever the Company's first mortgage bonds are offered in payment. In other words, Northern Pacific 7-30's are, if desired, at all times convertible, at 1.10, into real estate at lowest cash prices.

These Bonds, principal and interest payable in American gold coin, are now offered for sale at par and accrued interest in *Currency*, thus yielding at the present rate of premium on gold, over eight per cent. gold on amount of gold investment.

It will be noticed that these Bonds may be used at the holders option as a LAND WARRANT, for the purpose of locating any lands which are granted to the Company at a premium of *ten per cent.* meanwhile earning for the holder *eight per cent per annum*.

During the coming year it is anticipated that the Company will have equipped sufficient roads to entitle it to patents from the Government for 3,000,000 acres of land in Minnesota and 500,000 acres in Washington Territory. For sale by

FRIDAY MORNING, MAY 26, 1871.

CITY.

LIVELY RUNAWAY.—About 11 o'clock yesterday forenoon a young and spirited horse belonging to Sheriff Bills, ran away with a buggy, from in front of the drug store on First street, creating for the time considerable excitement. Runaways do not often make much of a sensation, but this was one of the most dramatic ones of the kind we have seen in many a day. The horse was hitched to an iron post fastened to the sidewalk. Becoming frightened at a barrel on the sidewalk, he jumped forward toward and across the walk, he jumped forward toward the wall of Holmes' building, breaking out and tearing up the plank into which the post was set. Turning around he threw the buggy entirely on the sidewalk and then started, knocking down a mortar and lamp post in front of the drug store as if it were only a reed. He ran around to Second and turning a short corner, went into the front door of the stable, through, and turning another short corner near the rear, went out the door, leaving the buggy inside. Being free, the horse took a stroll out through the streets of the city, but was subsequently recaptured very little damaged. Strange to say, the buggy was very little broken after all the rough usage it had.

ENGINE vs. INDIAN.—Wednesday afternoon the engine of a down train, just after rounding the point where Canemah, came in contact with an Indian known as "Indian Jim." Both the engine and Indian had full heads of steam on—the one from water and the other from whisky. The engineer of the engine seeing the Indian standing on the track, blew his whistle and tried to stop, but as engineer of the Indian scorning the white man's new-fangled wagon, refused to budge. The consequence was a collision of the engine and the Indian, which spun the latter round at the rate of about two thousand revolutions a minute, outwards, and then he went to grass, very dizzy and with several broken ribs. When picked up, he was too drunk to tell how badly he was hurt; the shock and the whisky rendered him insensible. The bystanders, however, thought the Indian had got the worst of it, and as he was not known as a very remarkably good Indian," not much regret was felt among those who knew him best.

LOVE CHASE.—We hear that a woman arrived by the last steamer in chase of a truant husband. She had followed him the plains across by stage; was a week too late to overtake at Sacramento; a week too late at San Francisco, but finding that her liege had emigrated to Oregon, hither she came. Keeping a sharp lookout she found him yesterday and demanded possession. We are not advised whether the object of her solicitude is disposed to fight, run or surrender. She charges, so we hear, that he married her, she being the widow of a man who had shuffled off this mortal coil;" that he got possession of her worldly goods and chattels and then went for a walk; not returning according to the marital contract to love, cherish, etc., the deserted wife concluded to take a walk in the same direction. Hence, this item.

QUESTIONS FOR SHAKESPEREAN READERS.—We have now a literary society—the "Wallamet." And to give it a start, we propound the following queries to the members of the society who are versed in Shakespeare: Was the "weak invention of the enemy" ever patented? Why did not Cassius ease his "itching palm" by scratching it? Was the "dreadful note of preparation" a discord in music or a promise to pay? Why, as a man of business, did not "What ho! Apothecary" have his name painted over the door of his shop? When the ghost told Hamlet to "mark" him, did he mean to have his son label him, "This side up with care," or any such thing as that? Did the "bondsman's key" that Shylock speaks of, belong to a burglar's kit? Was Richard Third, the Hunchback, the inventor of the Grecian Bend? We pause for replies.

JURY LIST.—The following named persons were drawn as jurors for the June term of the Circuit Court for Multnomah county: C. O. Clark, John Confer, W. N. Patton, Hampton Kelly, Arthur Mallon, James Menzies, Ed. Failing, George H Himes, John Exton, James McGuire, Elijah Corbett, Wm. Heartley, Levi Anderson, F. Hickan, John Gruber, John O'Niel, J. C. Carson, John R. Foster, E. Milwain, Thos. Bennett, C W. Burrage, John Donnerberg, James Marsh, O. S. Phelps, John Hibbing, H. L. Chapin, James L. McCown, George Clark, N. Kennedy, James Abraham, A. H. Johnson.

PASSENGERS FOR CALIFORNIA.—The N. P. T. Co.'s steamship John L. Stephens, Bolles, commander, sailed for San Francisco, last evening, taking the following list of passengers: Mrs H Benson, Judge L D Sawyer, C M Palmer, Mrs Sherbun, Miss Mary Sherbun, Mrs Chew and two children, Col Ed A Flint, W F Peterson, Ben M Holmes, Miss Annie Smiley, J W S King, S T Adams, H C Morrice, S Simons, Miss Lizzie Sherbun, Master John Sherbun, Alfred Chew, Rev A Brown, D A Lancaster, F R Dupont, S N Cooper, W F & Co.'s Messenger, and 6 in the steerage.

A GORGEOUS TURNOUT.—The band wagon belonging to the circus was out yesterday afternoon in all the gorgeousness of new paint and varnish and all boy kind was happy. The tooters tooted, the procession, including the whole stud of horses followed, marching in bedizened caparisons, the rear being brought up by the frisky Wallapus and about two hundred of the happiest boys in christendom. Thusly, the cavalcade moved through several of the principal streets until forced by the prevalent dampness of the atmosphere to get to shelter.

WHOLESALE CHICKEN LARCENY.—During Wednesday night the poultry yard of Mrs. Sunderland, residing at the corner of B and Twelfth streets, was robbed of about two dozen chickens. To provide against squawking and disturbing the innocent sleepers of that neighborhood, the spoilers of the roost wrung the chickens' necks on the spot, leaving the heads to console the bereft family. No doubt a sharp detective would find plenty of chicken sign about the Indian camps near the city.

GOOD FOR OUR SIDE.—The monthly report of the Department of Agriculture for March and April, has an excellent, though brief, letter from Puget Sound, which will doubtless be of advantage to Washington Territory. The same publication has condensed extracts from a long report sent to the Department by the Secretary of the Oregon State Agricultural Society, in relation to the agriculture, climate and growth of this State.

TEMPERANCE EFFORTS.—We learn that at the close of the exercises at the Nonpariel Hall temperance meeting, Wednesday evening, Mr. Ryan made an appeal direct to the working men to join the temperance movement, and that several gave in their names for membership in the Good Templars.

NEW BOOKS.—The following new books have been received at the Portland Library: London, its Celebrated Characters and Places, in three volumes, by J. Heneage Jesse; Mythology of the Aryan Nations, in two volumes, by Rev. G. W. Cox, M. A.

GONE EAST FOR MACHINERY.—Mr. A. Myers, who broke ground at Salem on Tuesday for his machine works, left by the steamer of last evening for the East to procure the necessary machinery for the factory.

STREET IMPROVEMENT.—The Committee on Streets and Public Property of the East Portland Board of Trustees, announce themselves ready to receive bids for improving G street, from Second to Twelfth.

U. S. DISTRICT COURT—DEADY, JUDGE—Thursday, May 25th.—In re.—R. Doty and others, in Bankruptcy; hearing on petition to sell real estate of bankrupts postponed till next Monday.

DRILLS.—The diamond pointed drills to be used in blasting the rocks for the locks and canal at Oregon City, arrived by the Ajax, and were forwarded yesterday afternoon.

KALAMA ITEMS.—The Tri-Weekly Beacon furnishes the following information:

A temperance society is about to be organized in Kalama.

Surveyors have arrived to establish the railroad grade to the Cowlitz river.

A force of graders are preparing a road bed from the warehouse to the saw mill.

Several teams have been discharging lately because they could not be worked to advantage. About 100 are still employed near Kalama.

It is reported that a company at San Francisco have purchased four miles below Kalama, for the purpose of starting a town. Among other improvements to be effected at that point is a grain elevator.

The John L. Stephens, on her way up, landed at Kalama, fifty-eight Chinamen and eighteen white passengers, besides mails and express matter.

Within three weeks, Mr. Montgomery, the N. P. R. R. contractor, will employ a force of about six hundred men in clearing and grading, trestle work, etc. A short section of track is now laid, and some cars are upon the track, ready, when wanted, to convey track-iron to the front.

THE CASE OF PFUNDER.—On Wednesday Judge Upton at Chambers heard the writ of review in the case of the State of Oregon vs. Pfunder, one of the defendants who not long since pleaded guilty before Judge Lewis to a charge of larceny. A mandate was issued ordering that the petitioner Pfunder have leave to move in the lower Court for permission to withdraw his plea of "guilty." The mandate was served upon Judge Lewis, and the petitioner was allowed to make his motion at 2 o'clock yesterday afternoon. At the appointed time the case was taken up, the motion for permission to withdraw the plea of guilty was granted, it appearing that the defendant had so pleaded under a misapprehension. The parties who preferred the charge against him, then withdrew the complaint and the prisoner was discharged.

THE OPPOSITION STEAMER.—The Annie Stewart got up steam yesterday afternoon, and left her wharf just before night for Astoria, taking a considerable quantity of freight and several passengers. She moves off well, and will undoubtedly prove a fast steamer. Her passenger accommodations are first class, being provided with about twenty well furnished state rooms. Capt. Wm. Turnbull, formerly master of the Fannie Troup, has command of her.

VANCOUVER.—A new Episcopal church edifice is to be erected in Vancouver by Rev. A. S. Nicholson of that place.

Mr. H. G. Struve has lately been dangerously ill, but is now convalescent.

Real Estate investments in Vancouver have become frequent of late, and good prices are paid.

PASSENGERS FOR THE NORTH.—The steamer Geo. S. Wright, which sailed last evening, for Puget Sound, took the following named passengers in the steerage: S Smith, John Henderson, Robt Smith, Mrs Johnson, Peter Gamble, F Marsh, S D Martin, A G Diffendorffer, Powell, F X Admitt, H Jaffour, Wm Patton.

Mr. Neil Donavon, late of San Francisco, one of the most extensive boot and shoe manufacturers of that city, has disposed of his interest there, and came to this city by the last steamer, and effected a co-partnership with Protzman, Gillihan & Co. in the manufacture of boots and shoes, adding to their manufactory his stock of machinery. Mr. D. has the reputation of being the most tasteful cutter of ladies' shoes on the coast.

MAP OF PORTLAND.—We find in the last issue of the New Northwest the following notice of Mr. William Davidson's new map and sketch of Portland: "Wm. Davidson, the irrepressible, indefatigable, enterprising and reliable real estate dealer, No. 64 Front street, has just completed a pocket map of the city of Portland, which is, in our judgment, the most perfect map of the city extant. Accompanying the map is a concise and comprehensive sketch, from which the immigrant can learn much in a short compass. In alluding to the commercial advantages of the city, Mr. Davidson says: 'Portland, as the center of a vast and prosperous manufacturing interest, at no very distant day, has been greatly overlooked. So abundant is the water, and so rapid is the fall, that it can be carried by canal for upwards of fifteen miles, taken from the falls at Oregon City, and the entire distance can be made available by the use of the Turbine water wheel and other modern inventions, and not even Lowell, the Sheffield of New England and the wealthiest manufacturing city of the Union, can compare in extent and vastness with the unlimited water power that can be furnished for the various manufacturing interests of this commercial emporium of the State.'"

AMUSEMENTS.

NEW YORK CIRCUS.—This place of amusement was opened last evening and the pavilion was pretty well filled, though a drizzling rain was falling all the early part of the evening. The company is composed of a large numbers of performers and a fine stud of horses. Most of the acts of last night, by equestrians, athletes, tumblers, etc., were done quite well, indeed, considering that it was the opening night, after seven months out of the ring. The circus is well organized, with many new performers, horses in fine condition, new properties and everything in good shape, and we predict for it a successful season. There will be another performance this evening. The pavilion is set up at the corner of Morrison and Fifth street, near the new custom house foundation. Excellent accommodations are provided for seating all, and reserved chairs on the platform may be secured for 25 cents extra. Go and see the circus to night.

THE SKATING RINK.—The attendance at this popular place of amusement last evening was very good. The crowds who go there for exercise and amusement seem to be growing constantly greater.

REMOVAL.—B. L. Stone, dealer in Variety Goods, Cigars and Tobacco, has removed from his old stand, corner First and Washington streets, to 108 First street, next door to Post Office. He has added considerably to his old stock and is fully prepared to wait upon his old customers, as well as the public in general m26d3w

The Household Tonic.

The efficacy of Hostetter's Celebrated Stomach Bitters as a specific for recruiting the enfeebled body and cheering the desponding mind has passed into a proverb In the United States, where this marvellous tonic has borne down all opposition and eclipsed all rivalry, the demand for it has annually increased in a heavier and heavier ratio for years, until at last, the regular sales of this preparation exceed those of all other stomachics combined. Eminent members of the medical profession and hospital surgeons without number, have candidly admitted that the pharmacopœia of the faculty contains no prescription that produces such beneficial effects in dyspepsia, general debility and nervous diseases, as Hostetter's Bitters. To use the language of a venerable physician of New York: "The Bitters are the purest stimulant and the safest tonic we have But the uses of the great vegetable antidote are much more comprehensive than such praise would imply. As a preparatory antidote to epidemic disease, a genial stimulant, a promoter of constitutional vigor, an appetizer, a stomachic, and a remedy for nervous debility, no medicinal preparation has ever attained the reputation of Hostetter's Bitters. It is the household tonic of the American people, and in all human probability will be so for centuries to come. The magnates of science recognize its merits; and it is emphatically the medicine of the masses, is proved by its fast and ever increasing sales.

GERMANY.

ADDRESS OF THE PARLIAMENT IN REPLY TO THE SPEECH FROM THE EMPEROR.

The following address was recently drawn up by members of all political parties in the German Reichsrath, and introduced in that body. The address is admirable in tone and sentiment:

MOST ILLUSTRIOUS EMPEROR: Under Divine guidance your Majesty and the united nation have succeeded in reaching a goal so long [illegible] by our ancestors, and so ardently [illegible] by the present generation. On [illegible] foundations than it ever had, has [illegible] Empire been restored. To pre[illegible] the fullness of its strength, and to [illegible] for the promotion of liberty and [illegible] is the resolve of the nation.

We [illegible] Majesty to accept the thanks [illegible] illustrious commander-in-chief of the German army, due to the bravery and devotion of our troops. We are fully sensible [illegible] benefits conferred upon us by deeds which have not only averted present danger, but protected us from the recurrence of similar troubles in the future. Defeat, and still more the strength added to our frontiers, will [illegible] restrain our neighbor.

The dire misfortune France is suffering now in addition to the calamities of war, confirms a truth which, though often ignored, is never neglected with impunity. In the family of civilized nations, even the most powerful can remain happy only by prudently continuing their action to the improvement of their own domestic affairs.

In times past, when her rulers were governed by a doctrine imported from abroad, Germany, too, chose to meddle with the concerns of other nations, and by doing so undermined her own existence. The new Empire [illegible] upon our own views of national and [illegible], and, armed for defense, will be [illegible] devoted to works of peace. In her intercourse with foreign nations Germany [illegible] for her citizens than that respect which law and international usage accord [illegible] by hostility or friendship, she is well content to leave other nations to themselves [illegible] will be happy to see them regulate their own affairs as they think fit. Interference with the internal arrangements of other nations will, we hope, never be resorted to again under any pretext or in any form.

Gladly shall we assist your Majesty in solving the problems occasioned by the war and the constitution of the Empire. Our first endeavors will be [illegible] to the sacred task of healing the wounds inflicted by the war, and fulfilling our duty to those who have sacrificed life or health for the safety of fatherland.

All bills submitted to us will receive our careful attention. We [illegible] surprised at finding that the preparation of bills devolving upon the administrative Boards has been delayed by the war, and we cannot but hope that the legislation of the Empire will be equally efficient as was that of the North German Confederacy. The introduction of North German laws into the Southern States enhances our confidence in the lasting concord of the constituent elements of the Empire, inclusive of the organs called upon to represent the individual States.

We are gratified to hear that the war indemnity will be employed for Imperial purposes, and the surplus used to satisfy the just claims of individual States.

The German people cherished the warmest feelings of brotherly sympathy for the inhabitants of the recovered territories. Alsace and Lorraine are studded with monuments commemorating the most glorious phase of German culture and national life. Although the vestiges of the past may in some cases have been obliterated by long estrangement, Alsace and Lorraine have been our own for a thousand years, and the majority of their inhabitants to this day retain our language and national characteristics. We hope that legislation and administration will unite in reviving the German nationality in those splendid provinces, and in strengthening the ties which bind them to us by conciliating their feelings. In this spirit we shall undertake the work of ordering the rearrangements to be introduced in Alsace and Lorraine.

Your Imperial Majesty—Germany, to be satisfied, and Europe, to be safe, required the establishment of the German Empire. Our national longings for unity have been fulfilled at last, and we have an Empire protected by an Emperor, and placed under the safeguard of its charter and its laws. After this Germany has no more ardent wish then to achieve victory in the noble strife for peace and liberty and their attendant blessings.

We are the most faithfully devoted subjects of your Imperial Majesty.

DER DEUTSCHE REICHSTAG.

GOV. STANFORD'S HORSE—BONNER.—The following from R Bonner appears in the New York Times, under date May 9th:

In your paper of the 7th instant, referring to the time made by a horse belonging to ex-Governor Stanford, of California, you say: "According to California authorities, Bonner must buy this wonder, or see Dexter's performance eclipsed. In a previous number of the Times you had printed the reputed exploits of this "wonder," as he is termed. These exploits, as you quote them from a California paper, consist of his trotting—

First—One half mile in one minute and seven seconds.

Second—Another and separate half mile in one minute and seven and one-half seconds.

Now, I have two horses in my stable that have [illegible] half a mile in one minute and six seconds, and one horse, Dexter, that has trotted half a mile in public, in one minute and five seconds. Dexter has trotted half a mile to a road wagon in one minute six and a half seconds. So you see that, if the California "wonder" is to throw dust in my eyes, as the article which you copy suggests, it can only be, from present appearances, when the wind blows from behind. I not only expect, but hope some day to see Dexter's time beaten. I have two or three horses myself which, if they do anything near what has been prophesied of them, ought to beat his time—and I paid more for one of them than I paid for Dexter; but I have been looking so long to see his time beaten—and the public have so often assured that it was about to be beaten—that I confess I have got almost tired of waiting, and I do not think the prospect is particularly encouraging when it is not even pretended that the last "wonder" brought forward to beat him can trot as fast to a light sulky as he has trotted to a road wagon.

HUMORS OF LEGISLATION.—The late session of the Illinois Legislature was not without the ordinary dashes of dullness and of wit. In the first or second week a resolution was introduced prohibiting the reading of the Bible in any public school. A rural member, in the course of the discussion which sprung up, spoke of the authorized version as "St. James translation." A reporter present, thinking the expression a slip of the tongue, corrected it in his report. The next day the member arose to a question of privilege, and remarked that he had been grossly misrepresented and insulted by the press; he did not say "King James' translation"—he said *Saint* James. Another member, speaking of his high sense of the compliment paid him when he was nominated and elected, stated that he had called to see a former legislator, a personal friend, to whom he expressed his very great regard for the laws of his country. "Yes," said his friend, somewhat hesitatingly, "yes, laws are like sausages—the less you know of how they are made the better you like them." One or two very happy retorts were made, though their originality may be open to dispute. A very vigorous speaker, with long arms, which he kept in perpetual motion, stopped for an instant to drink from a tumbler, when a brother member arose to a point of order, which was, that "it is out of order for a windmill to go by water." Another speaker, having kept the floor for nearly an hour, said, with an air of triumph, "Does the gentleman wish to ask any more questions?" Up sprang his opponent, who has a habit of stammering, and replied, "Yes, Mr. Speaker, I ask for the p-p-p-previous question."

A GEM.—Here is a gem, set in silver:—

FINANCE AND COMMERCE.

PORTLAND, Thursday, May 25, 1871.

Latest gold quotation at New York 112½.

Currency quotations, at this city, 89c buying; 90c selling.

Exchange—On San Francisco, ½ per cent; on New York, 3¼ per cent.

Telegraphic transfers On New York, 3¾ per cent. premium.

Interest—Bank rates 1 per cent. on 30 and 90 day loans; outside rates, 12 per cent. per annum. In some cases money is obtainable at 10 per cent., but agents' commissions are added, which makes the rate to the borrower 12½ to 15 per cent. In a number of real estate transactions, where time has been given on part of the purchase price, the rate of interest has been fixed as low as 10 per cent. with mortgage security.

Of late there has been some complaint among jobbers and wholesale merchants about the collection of bills from interior debtors, payments being merely slow rather than uncertain. In other respects money is sufficiently plentiful for all legitimate business wants.

The merchandise market is active in most lines. Dealers in agricultural goods report their trade as 15 to 25 per cent. better than during corresponding periods of any former year. During the last week the principal sales have been of farm wagons, horse rakes, mowers and reapers. A few threshers have been also disposed of, and a fair trade has been done in minor articles of farm tools. Thus far, the principal part of this line of goods sold have gone up the Columbia river, for the reason that the harvests of Eastern Oregon and Washington come on somewhat earlier than ours; but lately the orders from the western part of the State have begun to arrive freely. Hardware and grocery lines are also active.

Produce is dull and dealers are almost idle. Wheat has further declined seriously and the market is in a very uncertain state. Our quotations cover a range of $1 20 to $1 30 for white, and $1 12½ to $1 20 for red. The latter figure for each, is an extreme price. We hear of an offer to sell a large lot of shipping white at $1 35, for which the party had refused, a few days since, $1 45. As yet no buyer has been found, and the seller will probably have to concede still further in order to sell.

There is no stir at all in the line of provisions, and prices are steadily becoming weaker.

The San Francisco *Bulletin* of the 18th inst. publishes a full list of the vessels which have been dispatched from California to foreign ports with cargoes of wheat since last harvest. The number of these cargoes is 123, comprising 3,571,935 centals, or 5,950,225 bushels, valued at $7,140,052. At the best estimate, California will not have more than half the quantity to export this year that she had last year. The product of winter wheat in Oregon the present year will certainly be less than that of last year, but the area of spring club wheat sown is nearly or quite large enough to compensate for the deficiency in winter. The aggregate of the Pacific coast product will be far below the usual annual yield, and as the present harvest year will go out without any surplus left over, a fair price may be confidently anticipated. Oregon being particularly favored in the certainty of crops will, of course, reap the principal proportionate benefit of this state of things.
